Resolutions relative to the resignation from the faculty of Rev. Drs. Craighead, Butler and Purifying Water by Electricity.

To the Editor of The Evening Star: I read the article in your issue of the 16th describing the plan proposed by Mr. Bache of Philadelphia for purifying the water supply of cities by electricity in order to destroy bacteria or other germs therein.

A gentleman from Kansas came here some years ago to patent the same idea or plan, but upon investigation I found that it had been rents of electricity through the water in the main supply pipe, the destruction of germs not being included. The Kansas man, however. proposed to purify the water and at the same time destroy the germs and all living matter therein as well.

made by the people of this city. Now, few outside the government buildings show the flag at its proper position, namely, half-mast. As the occasion calls for a demonstration of affectionate remembrance and respect for the honored dead, who gave their lives so freely for this great and glorious nation, and as the services and exercises partake largely of a religious and solemn character, it would appear to be more appropriate that our flag should be placed at half-mast by all who unfurl it that day, because it should remind us that we are mourners, and ought not put on gala attire, such as is consistent when celebrating Inde-pendence day or Washington's birthday. Cruel Treatment of the Trees.

To the Editor of The Evening Star: Being neither a resident nor a taxpayer in this city my manifestation of solicitude for the injuries. preservation of one of its many charms, the beautiful shade trees, may appear out of place. But, whether proper or not, sights I have met with in my walks prompt me to protest against the reckless—I would like to say cruel—treatment to which a too large per cent of them is subjected. I refer to the barbarous practice of leaving horses unhitched near or hitching them to the trees. Unless the trees be well protected they are liable to serious injury by gnawing. Among many similar instances which could be cited a young poplar on 15th opposite Albaugh's has recently been barked. Cannot the protection of the police be extended in this direction? STABBED IN THE BACK.

Several years ago Gordon C. Ashton married Charles Garner's sister and as a result of their union three children have been born. Their home is at No. 1845 8th street northwest, but game, sharply played and with few errors, and from what happened last evening their home the score was even from the start—that is, even has not been a pleasant one recently. Ashton enough to keep up the interest until the last is a painter by trade and Garner has been boarding at his house. Garner thought he had

reason to believe that Ashton was not doing exactly the right thing about his sister and told him so. Ashton, who it is stated had packed his clothing preparatory to leaving the ouse, did not care to be called to account by his brother-in-law and a quarrel was the result. The men finally clinched, and on the parking in front of the house they attempted to settle the family differences by blows, and when the trouble was over Garner discovered that he had been stabbed in the back, where there were our ugly wounds.

Policeman Lynch appeared on the scene after the fight was over, and he took the injured man to Dr. Henderson's office and then back to his home, where he was attended by Dr. D. C. Stockstill, who found that the injuries were of

From the nature of the wounds it is evident that Garner was in a stooping position when they were inflicted, and that was all that saved Ashton left the house after the fight was over, and Officer Lynch followed him to his mother's house, No. 932 K street, where he

The prisoner admitted that he had been in the fight, but he denied that he did the stabbing.

He was locked up on a charge of assault and battery with intent to kill, but the case could not be tried today on account of the serious condition of Mr. Garner.

A THREATENED FLOOD IN A SCHOOL HOUSE. the main water pipe in the Curtis school is in a very bad condition and liable to' burst at any time and flood the entire basement. Should such a break occur there would be no means for shutting off the water, as the valve is covered by about three or four feet of earth and its exact location is not known. The matter will receive prompt attention.

MR. SCHLOSSER'S CHARGES AGAINST SERGEANT

Mr. John Schlosser today submitted to the sioners a number of charges against Son's.

The seventh musicale given by the pupils of Mr. Ernest Lent will take place in the lecture room of All Souls' Church tomorrow evening at 8 o'clock.

The Choral Society will have the assistance of the Georgetown Amateur Orchestra, the Washington Saengerbund, the Schubert and Philharmonic Quartettes and Mr. Anton Kaspar, solo violinist, at their concert tonight. Aside from the interest attaching to this concert as being given by a combination of all our leading musical organizations, the Choral deserves a good patronage in recognition of good work in the cause of music.

to young women showing housekeepers how to detect impurities in baking powder? Not the housekeepers certainly, for they always receive kindly, and often ask to have tests repeated before friends.

Who is doing this "warning"?

Who publishes reading notices attacking these young woman?

Who pays for such scurrilous advertising?

Nobody-except those who fear to have the composition of their baking powder known, and while crying "absolutely pure" are warning housekeepers not to see or make a "test" of their powder.

On the other hand everything used in Cleveland's Superior Baking Powder is plainly printed on the label, and the manufacturers welcome every test that can be made whether in the laboratory or in the kitchen, for

Beware of Quacks. As the public are sometimes imposed upon by advertising physicians—who claim to cure every disease that man is heir to, and who, by specious wording of their advertisements, lure patients to their office, where with smooth tongues they inform them of their dangerous condition and milk their pockets accordingly—I feel in duty bound both to the public and myself to show that I am not of that ilk.

I will state that I am a graduate of the medical department of the University of the City of New York and was under the personal teaching of Prof. A. L. Loomis in the wards of Bellevue Hospital. I make only diseases of the Bellevue Hospital. I make only disenses of the nose, throat, lungs and car a specialty. Dr. C. M. JORDAN,
